

Academy Acting & Film Company

Academy Acting & Film Company is a program designed to teach students the fundamentals of acting for the camera and stage in a production-centered environment. In the Fall, students will study real film and television scenes, learn the dos and don'ts of on-camera performance, and star in their own series of scenes. In January, students will attend a red-carpet premier where they'll be featured on the big-screen.

In the Spring, our course turns to acting for the stage. We'll focus on character study and stage blocking. The final performance of the year will be a collection of short plays. Students will spend time working, meeting and preparing with professionals in the film & acting industry.
